## EXTRA PROJECTS

- **ARK STUDIO LANDING PAGE**  
As a front end engineer I created a website for a company so that client just go through this website page and they will get to know about company and want services which company is providing. This is portfolio site for company.  
Involves: HTML5, CSS3.
- **ZOMATO REPLICA PROJECT**  
This is a Zomato Replica project. Where I try to make the page responsive and also add some animation to the webpage.  
Involves: HTML5, CSS3, Bootstrap.
- **NEWS AGGREGATOR APP**  
I create an app which fetches latest news and enables you to search/filter the same. Here I make the news aggregator using an existing API. I make this page responsive so user can access it from any device. Here I use two API one is showing the latest news and other for searching the news. I also provide some animation by using some css properties.  
Involves: HTML5, CSS3, Bootstrap, Javascript, jQuery, Ajax.
